Essay Instructor Responses for FASH220010 for 2015 Spring (2153)

Questions	
QID	Question
16605	List 3 things the instructor could have done differently to improve your learning in this course.
Response #1	I don't think that Professor Hall should have done anything different in her class. After ever exam she asked us for our feedback on wording on questions, if there were too many short answers etc.
Response #2	Honestly, I enjoyed every minute of this class. I learned so much more than Textiles 1. The topics discussed we all, for the most part, very interesting.
Response #3	there were a lot of long lectures and a lot of powerpoints to study! maybe they could be condensed a bit. otherwise i have no complaints about the class or Martha, she was awesome.
Response #4	Sometimes she graded homework assignments unfairly and expected us to know more than we learned in class. Also, I think we needed more time to complete in class projects. And some more review before the exams.
Response #5	seperate the chapters more evenly between exams, or add a fourth exam to have less chapters per test, have assignments with questions similar to exam so can get an idea of how you would question things learned in class
Response #6	Helped us prepare better for exams, had less open ended questions on exams, made the class a little more stimulating.
Response #7	Nothing! She is honestly the best professor in the entire fashion department. Sad to hear she will not be teaching anymore!
Response #8	Originally I would have said showing us the fabric she was going to test us on (an array of them) but she ended up doing that after the second exam. Martha was very receptive to our feedback and acknowledged when we didnt do as well as we could.
Response #9	Nothing, this was a great class.

Response #10	She was honestly one of the best teachers I've had at the University. She was young and interesting which made coming to class and partaking in class activities a breeze. She also came up with creative ways to teach us things--cool in class activities and homework assignments--that made learning a little easier.
Response #11	Nothing, it was great
Response #12	I can't think of anything offhand that the instructor could have done to improved my learning in this course. She taught the class very well and I learned much more than I did in the previous textiles course.
Response #13	Honestly, I would not change a single thing, this class was interesting, engaging, and made me excited to come to class!
Response #14	Honestly, nothing. Professor Hall was amazing and she did everything in her power to make sure the class understood the material.
Response #15	nothing

Detailed Course Responses for FASH220010 for 2015 Spring (2153)

Essay Course Responses for FASH220010 for 2015 Spring (2153)

Questions	
QID	Question
16604	List 3 specific strengths of this course.
Response #1	- Everything we learned in this class, Professor Hall related it back to real life things and made it interesting and easy for us to remember. She is very personable and fun and manages to make very dry subjects interesting and fun to learn. - Her assignments online were very helpful. They contributed to our understanding of different subjects and were also interesting and creative. The assignments are also weighted the same as exams all together. If you are not a good test taker you still have a chance at getting a good grade. - Our in class assignments were interesting, fun, and helpful. They related current material with past material to help us really connect the dots and understand the big picture of thing.
Response #2	1) Broad range of industry topics covered 2) Ability to have hands on activities 3) The professor

Response #3	Martha was a wonderful and engaging instructor and I am SO SAD she won't be teaching again next semester. She used real world applications and had really interesting lectures. She also always brought in the fabric for us to look at and touch so we could understand the material better. If she didnt have the fabric, she would have us look at our swatch kits (which we used all of one time in FASH215...) so it was a much more involved way to learn. one time she even brought us cupcakes! :]
Response #4	The professors knowledge really helped me learn. The in class assignments were good practice for exams. Homework assignments were helpful for applying our knowledge to the real fashion world and possible jobs in the industry.
Response #5	very hands on by explaining fabrics and then having us look at them to feel it our selves, much better teacher than previous textiles and explained material very clearly and always offered assistance to anyone who needed help or had questions
Response #6	a lot of in-class assignments that contributed to our grade, always was helpful and offered her help for anything, and actually cared and wanted us to learn and understand the material
Response #7	Martha Hall was an excellent teacher. I took the previous course with a different instructor and was having a hard time learning and understanding and I have learned so much from her teaching methods. I enjoy coming to class everyday and I would definitely love for her to teach more apparel design courses. Something that really stood out to me was the way she engaged the class throughout the lesson and how easy it was to understand her explanations. By far my favorite teacher in my college career.
Response #8	No comment.
Response #9	The outside homework always helped test my abilities. I felt engaged in her lectures. I never felt uncomfortable to ask a question and I never felt that Martha was judging us, she would try and be as much of a peer to us as she could. She was the best teacher I've at UD so far, I learned a significant amount that I can apply to the real world.
Response #10	Professor wanted us to learn the importance that the textbook information has in the real world, in class activities helped me better understand the spoken lectures/ power point slides, and our Professor knew a great deal of the subject matter which helped her explain it both technically as well as easier to understand.
Response #11	Interesting n class activities and homework assignments. Having a teacher who actually understands the material. Interactive powerpoint slides.
Response #12	Well organized Real examples engaged students in learning
Response #13	Professor Hall is one of if not the best teacher I have had at this university. She took a normally very dull course and made it interesting and relatable. I enjoyed it very much. She gave students many opportunities to succeed and cares about her students. I would take any class she was teaching!
Response #14	I have a much better understanding of how fabrics are made. The sustainability lecture was very interesting and thought provoking. The in class projects helped me understand the material very well.
Response #15	made subject matter relatable and interesting for students in class activities furthered understanding of subject matter
Response #16	-teaching style -Classwork -engaging and interactive presentation
Response #17	She brought in materials to physically display to help us learn. She cared about her students and always wanted to try new ways to teach.
Response #18	-Hands on learning with swatch kit. -brought in examples from the historic costume collection that made learning about textiles easier. -in class assignments helped understanding the material

Response #19	Well organized. Well thought out in terms of order of learning.
Response #20	I love the in class assignments, the way in which she taught the class, and the way the class was engaged.
Response #21	she made us intrigued the powerpoint were clear our homework related so well.
16606	What could you have done differently in this course for an improved learning outcome?
Response #1	One of the only things that could have been done differently in the class is to have some more fabric identification exercises to help us when we have to identify the fabrics on the exam.
Response #2	Nothing. Martha is the best instructor I have ever had, hands down.
Response #3	NOTHING!! Great instructor!!
Response #4	more condensed powerpoints.
Response #5	put more effort into the homework assignments and read before class
Response #6	I don't think anything really. it was definitely obvious Martha Hall wanted us to learn and worked hard in doing so.
Response #7	Nothing!
Response #8	I could have studied earlier but It was difficult because my exams always fall within the same week.
Response #9	Nothing.
Response #10	I feel I learned a lot in this course
Response #11	I could have studied a little more and read the book more as well.
Response #12	Nothing!
Response #13	took notes every single class
