## Essay Course Responses for FASH324010 for 2013 Fall (2138)

Questions	
QID	Question
263	What were the best features of this course?
<b>Response #1</b>	One of the best and most valuable parts of this course was Martha's involvement in the whole design and production process. It really helped give a sense of how working in the industry might be, rather than just giving us an assignment and us doing whatever we wanted.
<b>Response #2</b>	I liked how creative we could be with the projects. Martha was a really good teacher who gave us feedback so quickly.
<b>Response #3</b>	I really liked the freedom within each project but that they still gave my guidance/ a good starting off point.

**Response #4** Where do I begin?! This course FINALLY gave students structure and punctuality. It was a breath of fresh air to have a sewing instructor that was early for class every single day, returned grades as soon as possible, and encouraged us to not only use our imagination, but also to create with our portfolios in mind, and also with the Synergy fashion show in mind. All my class ever wanted in a sewing class were grades to see where we stood in the class, and the instructor went above and beyond. Receiving feedback means everything in a sewing class, and I was so happy to finally have an instructor that took the student-teacher relationship seriously. I feel like the instructor prepared me for senior collections, whereas with my previous instructor I felt completely lost and doubted my abilities. The instructor helped me see that, regardless of struggles and doing some things wrong, that I am still capable of pursuing a career in fashion design.

**Response #5** The creative freedom and interesting projects

**278 How might this course be improved?**

**Response #1** At times I found the deadlines to be overwhelming and hard to manage. I think having an extra day for sewing was extremely helpful.

**Response #2** I think that there should be less time spent on the samples and more time spent on projects.

**Response #3** Office hours that we didn't have class during would have been helpful. Also felt some deadlines were kind of unreasonable but otherwise really liked the course and learned a ton.

**Response #4** The only way I would improve this course is to have some muslin provided for students. Costs for muslin for the entire semester was very high. My freshman and sophomore year I paid a lab fee for which I received no supplies which was extremely frustrating. Our projects alone are very expensive and although I strongly believe the muslin samples and toile were instructional and effective, it became very straining on my finances.

**Response #5** Glving more time to construct the project garments and more point percentage for the final garment because it does take the most time to do
